What you mean?

You have firmware for K2000?

No, I do not have the firmware A20 sorry, I have A12 A02.
I ask the firware A20 must be divided into odd and even U156 U157, A20 or directory corresponds to only one of the two memories

Excuse my bad English

#3 - 11/02/2014 11:38 AM - tin

Both odd and even parts was stored too
You can check [here in repository](#)
